DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 9-12, 15, and 16, which are directed to the species non-elected without traverse.

Accordingly, claims 9-12, 15, and 16 have been cancelled.

Allowable Subject Matter

Claims 1 through 5, 8, 13, and 14 are allowed.

Claims 4, 13, and 14 are allowable. The restriction requirement among the species 1 to 5, as set forth in the Office action mailed on 3/15/2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4, 13, and 14, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 9-12 and 15-16, are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

At this instant, the prior art of record fails to show or make obvious two seat raising/lowering arms comprising two plates at a predetermined interval and a connecting member on either end with a roller disposed between the two plates and the arms being disposed on both sides of the slide base.
